DETAILED ACTION

Allowable Subject Matter

Claims 102-144, 148-166 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 102, 142, 143, , with the allowable features being; a non spherical capsules dispersed in a binder which are deformable membrane which is deformed into a non spherical shape(claim 102); the formula pertaining to the ratio of mass of the binder solid to a mass of the capsule(claim 142); at least one of the capsules having at least one electrophoretic particle dispersed in at least one suspending fluid(claim 143) . Therefore claims 102-144, 148-166 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
